

## Lee speaks on State of the College

Jerry C. Lee, president of Gallaudet, gave a series of five "State of the College" addresses to Gallaudet faculty and management groups during the week of Sept. 10.

The purpose of his addresses, as Lee defined it, was to bring people up to date on the status of Gallaudet, to present his personal objectives for the year and to communicate opportunities from which the various groups could benefit.

*On the Green* covered the first presentation, which was addressed to the collegiate faculty on Sept. 10.

Monetary issues were at the core of each of the sections of the presentation. The fiscal year 1984 College budget process has come to a conclusion with the signing of federal legislation by President Reagan. Gallaudet's original authorization of 56 million dollars has been appropriated in two parts by the Congress for FY 84. Lee expects to make pay increases effective October 1 upon receipt of the supplemental \$2 million.

The legislation involving the FY 85 federal appropriation to Gallaudet is now in conference. The Senate has recommended \$56,700,000 and the House \$58,700,000. No final action is expected on the legislation until after October 1. Lee announced that he had also been requested to submit a FY 1986 budget request. As part of his request, Lee has sought functional and merit salary increases for faculty of eight percent and staff of six percent.

The College is currently involved in its first Congressional audit in over ten years. The audit is being conducted by the General Accounting Office and is expected to be completed this fall.

Lee also mentioned that "the legislation that established Gallaudet, MSSD and KDES comes up for review and reauthorization during 1985." At this time Congress will review the purpose of the programs, refer to the findings of the GAO audit and determine the legitimate federal responsibility for support of the programs.

## Gallaudet letters given to College

Nine original letters written by Edward Miner Gallaudet have been given to the College by the daughter of a former superintendent of the New York School for the Deaf.

The letters—written in 1857 and 1858—were presented to President Jerry C. Lee by Deane Works of Portsmouth, NH. Works' father, Victor O. Skyberg, graduated from Gallaudet in 1912 and served as the superintendent of the Minnesota School for the Deaf from 1928 to 1932 and superintendent of the New York School for the Deaf from 1932 to 1943.

The letters were sent to officials of

In further describing the status of the College, Lee stated that at the request of the Board of Trustees the College will be reviewing the tenure-granting process employed by the College, MSSD and KDES. "The Board and I are committed to the concept of tenure" stated Lee. Alternatives to tenure such as contracts and non-tenure track positions will be considered. In addition, Lee stated that "there are 42 administrators who have tenure and that is too many." Provost John Schuchman will prepare a paper on tenure for presentation to the Board in January.

One of the slides used to illustrate Lee's presentation showed that the College enrollment now stands at 1,985, MSSD enrollment is 350 and Kendall 200. The College and KDES have the enrollment desired, but MSSD fell short because of the earlier threat of loss of funding.

Lee said that one federal proposal has been to adopt "formula funding" which would equate federal appropriations with students and the population served; i.e., "more students would equal more money and less students, less money." This follows an Office of Management and Budget position that over \$6 million of the appropriation is rubella-related funding, designed to serve the temporary swell in the college-age deaf population.

The College has an endowment (as of June 1984) of \$2,609,300, which is "low for a College the size of Gallaudet," stated Lee. His goal is \$26 million.

The general fund, which acts as a reserve for the College, has \$3.25 million in unobligated funds. Lee hopes to increase the fund to \$5 million during his term as president.

This general fiscal description of the College served as a backdrop for Lee's presentation of ten objectives for his presidency.

First and foremost is the objective of ensuring the quality of the academic

the New York Institute for the Deaf and Dumb in the early years of Gallaudet's tenure as superintendent of the Columbia Institution for the Instruction of the Deaf and Dumb and the Blind, later named Gallaudet College.

Eight of the nine-hand-written letters were addressed to Harvey P. Peet, president of the New York Institute. The remaining letter was written to I. Lewis Peet, the school's vice principal.

In all of the letters, Gallaudet was requesting materials for the school.

The letters have been added to the collection of Edward Miner Gallaudet papers at the College Archives.

Jerry C. Lee, president of Gallaudet College, speaks before faculty group on the State of the College.

programs. Dr. Catherine Ingold, chair of the collegiate faculty, has been asked to chair a faculty committee on program evaluation. Lee said that "we cannot set goals unless we know where we are now." Ingold and her committee will prepare a report for the May 1985 Board of Trustees meeting.

In Lee's second objective he will be asking if the current College plan fits the future and is equivalent to that of a modern land grant university. The master planning process is scheduled to continue through the year and to be prepared for final review by the Board in November 1985 with implementation scheduled for January 1986. As part of his objectives, Lee will be working to enhance the College's relationship with Congress and federal agencies, establish an appropriate organizational structure for the College and ensure the program's viability through appropriate management.

Two new programs are among his objectives. The Gallaudet Foundation has been established with Philip M. Sprinkle, member of the Board of Trustees, serving as chairman of the Foundation. The Foundation has been established as a non-profit tax exempt corporation which will be administered by the president of Gallaudet College. Henry Ashforth, also of the Board of Trustees, Lee and the new vice president of College Relations will serve on the Board of the Foundation. Other directors already recruited for the Board are Peter Herrick, president of the Bank of New York, and Burton Tansky, President of Saks Fifth Avenue. Four other people have been asked to serve but as yet have not been confirmed as members of the Board of the Foundation.

As part of his rationale for the new organizational structure of the institution, Lee stated that the traditional thrust of the College is instruction, research and service. With this in mind, Lee plans to add two more extension centers to the College by FY1986 and expand the College's work in medical

and engineering areas.

The Gallaudet Institute will be launched this year. This is a one-year program designed to remedy the current lack of deaf persons in senior management positions in business, government and education. The institute will train deaf people for these upper management positions. During the first two or three years a deaf person will be selected to attend training programs at Harvard and Wharton School of Business and do an internship with a Chief Executive Officer of a corporation or president of a College. Following the experience of these deaf people, the College will then have data to establish a Gallaudet summer institute for management development.

The Ingersoll Group will be acting as consultant to the College in the development of an enrollment management system to aid student recruitment. Schuchman will be responsible for this system.

Lee went on to mention that Gallaudet produces a wide array of products and services and that the improved

## "Images"

"Images," a 30-minute magazine program for hearing impaired individuals, is being produced by Gallaudet College Television. GCTV invites your comments on the new program, which premiered at Gallaudet on Sept. 13.

The first program produced will be shown on Gallaudet cable television Channel 8, Monday through Thursday, Sept. 17-20, at 10 a.m., noon, 3 p.m., and 8 p.m. Send any comments to Tom Klagholz at Gallaudet College Television.

"Images" will appear on WETA-TV, Channel 26, in this area this fall and on cable television. The program is hosted by Nathalie Marbury and Mel Carter.

# Serendipity

## Library Bits & Pieces

### Videotape formats

by Tom Harrington

Welcome back to another academic year. One of the services the Library would like to introduce concerns videotape formats. As technology advances, the old saying, "Out with the old, in with the new" becomes true for videotape equipment.

The College is beginning the process of conversion to VHS-format videocassettes. This format offers the advantages of lower cost for both equipment and tapes, greater ease to use, and wider availability of blank and pre-recorded tapes. Since the investment in the videotape collection is too great to allow overnight conversion, the current three-quarters-inch U-Matic standard will remain in use for a number of years.

VHS machines are already available in the Library, including a new second Self-Study TV Room in that format.

Machines for three-quarters-inch U-Matic tape will remain in parallel use but will slowly shrink in number as VHS usage spreads throughout the campus.

In addition, the old one-half-inch reel-to-reel tape format is being retired. This format is thoroughly obsolete and it is becoming increasingly difficult to make repairs and find parts for the equipment.

Accordingly, the Library will retire the last of the one-half-inch reel-to-reel videotape players at the end of the fall semester and support will no longer be given to this format.

Anyone who has videotape programs in this format that they want to keep will have to arrange for conversion to VHS format before December. It is recommended that conversions not be delayed since some may require time-consuming acquisition of permissions from the holders of the original copyrights.

### Gallaudet Press publishes new book

Gallaudet Press announces the publication of *Analyzing Syntax and Semantics* by Virginia A. Heidinger.

Heidinger is a long-time member of the Gallaudet faculty. She is recognized in the field of deaf education for her knowledge of language instruction. During her tenure as a professor in the graduate school, she has sought appropriate materials to use in her classes. Unable to find exactly what she needed, Heidinger developed, tested, and refined *Analyzing Syntax and Semantics*. The entire process took 4 years. The text has proved to be extremely effective both in the Gallaudet graduate school and in other teacher training programs.

Language instruction in the education of hearing impaired and language-delayed children is of great importance. The professionals who work with these children must possess the knowledge and skills to analyze language function-

ing and to choose appropriate language curricula. *Analyzing Syntax and Semantics* provides a step-by-step program that prepares professionals to do their jobs. It can also be used by teachers and clinicians who feel the need for a refresher course.

The text has three components—a textbook containing 22 chapters on the syntactic and semantic concepts that can be expressed in English; a workbook containing exercises and practice tests corresponding to each chapter in the textbook, and an instructor's manual containing explanatory material, a set of chapter tests, and an answer key.

The *Analyzing Syntax and Semantics* textbook (\$25.95) and workbook (\$19.95) are available in the Gallaudet bookstore. The instructor's manual (\$14.95) can be obtained from Gallaudet College Press.

Rocky Yost (r.) chats with Tom Landers and Marty Minter at a reception for him at the home of President and Mrs. Jerry Lee. Yost, a screenwriter, is visiting Gallaudet for a few weeks to explore the possibility of writing a script for a film about students attending Gallaudet College.

### State of the College address given

continued from page 1

marketing of the College, its programs and services is one of his objectives.

The assessment of the future of the Northwest Campus is objective nine on Lee's list. Last year he received a letter from the Office of Management and Budget suggesting that he sell the facility. The College has just completed renovation of the campus at a cost of \$8 million. This year Lee seeks to evaluate whether the preparatory program enrollment will remain at a level that will adequately use the facility.

Lee stated that there are internal and external perceptions of Gallaudet that are harmful to the viability of the program and the management of the institution. Analysis of the layers of administration and the ways in which programs work together will be part of the objectives.

In conclusion Lee invited the faculty to work with him in three areas: to help advise the president and Central Administration on faculty compensation programs, to establish a faculty advisory group which will promote faculty involvement in future decisions, and to

continue participating in the development of a master plan for the College. "It is vital to have faculty input as we continue to select future programs," stated Lee.

Lee closed his presentation to the faculty by saying, "I know that the past eight months have been difficult. However, it is time to look forward and not to the past. You are the world's experts on education of the deaf. And I am confident that by working together we can fulfill Gallaudet's mission."

### Logo design search

Gallaudet College is now in the process of developing a logo which will represent the total educational mind and spirit of Gallaudet.

Several artists on campus and within the deaf community have been asked to submit designs by Sept. 21 to Jack Gannon, executive director of Alumni Relations and Advancement.

When chosen, the logo will be used on College stationery, printed materials and on College operated vehicles. It may appear on "T" shirts, mugs and other novelty items.

The logo will not replace the College seal which is used on official documents and specific formal designs. Gannon expects that the logo will be in use by June 1985.

### Car insurance benefit

A new benefit, payroll deduction automobile insurance, will become available to employees in October 1984. A series of information meetings have been scheduled for the latter part of September to introduce employees to the new benefit concept and its money saving potential. The meeting schedule will be announced as soon as it has been confirmed.

Provident General, a leader in the field of employer sponsored personal lines insurance, is the company offering this innovative benefit. As an employer, Gallaudet sponsors this unique way for its employees to possibly reduce their own private auto insurance. While there is no employer contribution toward the cost and employee participation is voluntary, there are many advantages to participating in the plan; the elimination of a lump sum premium payment because deductions will be made each pay period, and the availability of local service representatives to meet your insurance needs and answer your questions.

All these aspects of the plan will be discussed in greater detail and your questions answered at the meetings scheduled in September. For further information, contact Kayt Lewis x5113.

## Sponsored R&D

### Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline	Program
10/01/84	NIA: Behavioral Geriatrics Research
10/01/84	NIA: Aging and Visual Perception
10/11/84	ED: Bilingual Education Demonstration Projects
11/01/84	NCHSR: Grants for Health Services Dissertation Research
11/01/84	NIH: New Investigator Research Awards
11/15/84	NSF: Visiting Professorships for Women

11/01/84	NIMH: Child and Adolescent Mental Health Research
11/01/84	ED: Strengthening Research Libraries

### Genetic Counseling

The Gallaudet Research Institute has been awarded a grant of \$122,451 by the Department of Health and Human Services to fund the project "Demonstration of an Innovative Approach to Genetic Counseling Services for the Deaf Population."

One of the major services that the project will provide is a comprehensive genetics program at Gallaudet College which will include screening and evaluation, diagnosis and counseling, referral and follow-up. Additionally, integration and coordination with the network of services offered by the D.C. Genetic Services Program will be developed.

For more information on this project you can contact the Program Director, Dr. Kathy Shaver at X5132.

## Course descriptions

The following is a brief description of Computer Services short courses being offered this fall. As always, the courses are free and open to all Gallaudet faculty, staff, and students. Enrollment is limited. Register early. To register, complete the form below and send to Computer Services, HMB 118. For more information, you may call x5613(voice) or x5616(TDD).

### • Computing at Gallaudet

This seminar gives an overview of computing at Gallaudet. The presentation will include a tour of the two Computer Services sites. This class is intended for persons new to Gallaudet or those unfamiliar with GCCS.

### • Intro to VAX

This course will introduce the student to the basic features of the VAX computer. At the end of the course, the stu-

dent will be able to interact with the VAX at a beginner to intermediate level.

### • Intro to UNIX

This course will cover the significant features of the UNIX operating system. There will be in-class demonstrations of basic system commands and the UNIX editor. IMPORTANT: Because of the length of this class, Supervisor approval is required for all staff members who wish to register for this class.

### • Intro to DEC-Land

This course will introduce the new computer user to the basic commands needed to interact with the DEC-10 computer. The student will learn various ways to find help on the system and will learn the definition of several computer related terms.

### • SOS-Editing

This course covers the use of the SOS editor to create and edit/modify data files and programs. SOS is the primary editor on the DEC-10 computer.

### • EDT-Editing

EDT is an editor used on the VAX computer. The student will learn the difference between a screen editor and a line editor. The course covers all the basic commands needed to create edit/modify data files and/or programs.

### • DOCGEN

This class discusses the capabilities of DOCGEN, which is a document processor. The student will learn how to format text files using DOCGEN commands. DOCGEN can be used for letters, manuscripts, reports, dissertations or any other writings.

### • Using Tapes

This class will cover basic information about the use of magtapes. What is a magtape? How do I buy tapes? Why should I use tapes? What is a backup? How can I see what's on my tapes? The student will learn tape handling commands for both the DEC-10 and the VAX computers.

### • Graphics

This course teaches the use of various

graphics packages available on Gallaudet computers. The student will become familiar with TELL-A-GRAF, CUECHART, and other graphics products on both the DEC-10 and the VAX computers.

### • VAX Orientation for DEC 10 Users

This class is intended for the experienced DEC-10 user who is now beginning to use the VAX computer. This seminar will cover the differences and similarities between the two computers. A list of DEC-10 commands with the equivalent VAX commands will be discussed. A question and answer period will follow the discussion.

### • IBM Personal Computer Training

This workshop style seminar will acquaint the new user with the operational aspects of the IBM PC or IBM PC/XT. The participants will also become familiar with several application software packages including Lotus 1-2-3, Displaywrite (word processor) and many others. There will be a demonstration and hand-on experience.

## Computer Services in new areas

There are several computer user areas on the campus. Most have both access to the large computer and one or more PCs. Current user rooms include HMB 118 (8 terminals, 1 Apple II, 1 IBM PC and 1 IBM PC XT) and the terminal area in the Learning Center (LR) in the Lower South (LS) area (10 terminals and 1 Apple II+). User Aides are working there and a schedule is posted listing exact times.

Three additional locations are scheduled to open early this semester. The Northwest Campus' Alternative Learning Center (ALC) will house eight terminals and 3 PCs. EMG B06 (4 terminals, 1 PC, 1 PC XT, 1 Macintosh), and the Microcomputer Area in the Learning Center, LE 60 (10 PCS and 2 XTS) will increase computer access on the main campus. Each area will be staffed by user aides. Northwest Campus' ALC and Kendall Green's EMG B06 will be staffed about 40 hours per week, while the HMB 118 terminal room, the Learning Center terminal

area (LS), and the Microcomputer Area (LE 60) will be staffed about 70 hours per week. Exact schedules will be posted at each area.

There are several program-related user sites on campus. They include: the English Work Center in HMB 224 (10 terminals and 1 XT); the Writing Center in HMB 111 (1 PC, 1 XT, 2 printers, 1 terminal); the Physics laboratory in HMB 370 (1 XT, 1 Apple IIe); the Mathematics/Computer Science laboratory in HMB 275 (4 terminals, 1 XT); MSSD (3 PCs); Business Administration, West Office Building (1 XT).

Terminals in HMB 118, the English Work Center, the Mathematics/Computer Science laboratory are now connected to the DCA—a communications device that permits users to choose the appropriate computer (DEC-10, VAXA, etc.).

Anyone with ideas or suggestions about microcomputers is welcome to call John Millikin at x5613 voice or x5616 (TDD).

MSSD won its season opener on Sat., Sept. 8. The Eagles defeated Randolph-Macon 22-0. The Eagles scored all their points in the first half and the defense did a splendid job in holding R-M to a total of 58 yards.

## College plays opener against Ferrum

The varsity football team has been going through daily practice sessions in preparation for the season's opener against Ferrum Junior College on Friday, Sept. 28 at Gallaudet. The game will start at 4 p.m. All faculty, staff and students are invited to this game to give the Bison gridiron men visible support.

The Alumni House Happy Hour will be extended from 3 p.m. to 8 p.m. for those who would like to have a drink before and/or after the game.

Rookie head coach Mike Jackson, an alumnus and an employee in the Print Shop, is looking forward to the first game and feels confident the Bison will ready. "We are focusing on speed and timing," said Jackson. "I think we

will have a good running game but it is important for the running backs to move fast when the linemen make an opening."

In addition to the opening football game, the soccer team will also play on Friday afternoon against Frederick Community College. Head coach Marty Minter is aiming for unprecedented ninth consecutive winning season. Minter is aiming for an unprecedented USA soccer team which will participate in the World Games for the Deaf in California next summer.

The women's field hockey and volleyball teams will begin their seasons very soon as well as the men's and women's cross country team.

## Classified Ads

**FOR SALE:** 1984 Cherokee Jeep. 4 dr-4spd., lifetime rust remover, power steering — low mileage. Asking \$9,500. Call Ron G. at x5907 after 4 pm.

**FOR RENT:** 1131 8th St., N.E. \$600 per month. Three bedrooms 1-1/2 baths, full basement. Call Darling Realty at 779-4777 (Voice) or 779-6380 (TTY). If you have any questions, please contact Naomi at MSSD on x5954.

**FOR SALE:** 16mm Bell and Howell movie projector, good condition, \$250. UCR-Panasonic, good condition but needs head cleaning, \$150. Set of World Book encyclopedias, Childcraft, Cyclo-teacher, 2 dictionaries and some extras—old but still very informative and in good condition, \$150. Call 490-0946 (TTY).

**HOUSEMATE WANTED:** Room to rent. Available now in a 3-story townhouse in country-like neighborhood. Swimming pool/tennis courts—approx. 10 miles from Gallaudet. Neat and independent person preferred—non-smoker only. One-year lease required. Call Jeff at 794-5758 (TDD only).

**FOR SALE:** Portatel TDD and MGA 12" Portable black and white TV. Both are in excellent condition. Negotiable. Contact Dave at x5350 or 577-6809.

**ROOMS WANTED:** Female student w/ a deaf son (teen-ager), looking for 2 bedrooms in Maryland, non-smoker. Call Bonnie at x5572.

**FOR SALE:** 1972 MGBGT, 79,000 original miles, new paint job, new brakes. Have copies of all maintenance records since bought new, \$1,500 or offer. Call (301) 262-9224.

**FOR RENT:** 3 bdrm house w/skylights in Silver Spring. Available Sept. 15, \$600. Call Joanne at 942-3934 evenings (Voice/TTY). Call 722-5825 for day message.

**FOR RENT:** Two bedroom apartment. 1 block from Florida Ave. Central air, newly renovated. Call Ms. Gaither at 496-4457 between 9-6 pm. Call 890-6396 after 7 pm.

**FOR SALE:** Toyota 74 Celica ST 2 Dr. 4 spd. Yellow with black top, P/S, P/B, AM/FM/Cass. Runs excell. \$1450/best offer. Call x5913 or TTY 587-5871 evenings.

**HOUSING NEEDED:** Male Grad Student seeking housing for school year 1984-85 with deaf family or will share apt. or home with deaf students. I have a car for transportation. Call Jim at 890-8220 or use Gallaudet P.O. Box 1347. Call late afternoon or evening. Do not leave messages on the answering machine.

**FOR RENT:** Winter rental of a 2-br, 2-bath apartment in Ocean City, Md. Walking distance to the beach. Contact Ron or Agnes on x5941 at work or 434-6409 at home.

Ron Sutcliffe (r.), property specialist, was honored for his 25 years of service to Gallaudet at a reception hosted by the Office of Business Services on Sept. 7.

## Jobs Available

**Some of the advertised staff positions may already be filled.** For updated information, call the JOB RECORDING in the Personnel Office, x5514 or x5520 TDD.

**SECRETARIAL POSITIONS:** Contact Personnel for listing.

**APPLICATIONS PROGRAMMERS:** Computer Services

**CAMPUS POLICE OFFICER:** Safety and Security

**DISPATCHER:** Safety and Security

**MANAGER, ACADEMIC APPLICATIONS:** Computer Services

**MANAGER, NETWORKS AND COMMUNICATIONS:** Computer Services

**SUPERVISING PSYCHOLOGIST:** Counseling and Placement Center

**CIRCULATION MANAGER—World Around You & Perspectives:** Outreach

**SYSTEMS ELECTRONIC TECHNICIAN:** MSSD Learning Resources Center

**MECHANIC II:** Physical Plant Department

**VICE PRESIDENT FOR COLLEGE RELATIONS:** President's Office
